CCR No. 96-1178	Logged Date 10/11/96	Rev.	Request Type CCR
Priority Routine <input type="checkbox"/> Urgent <input checked="" type="checkbox"/> Emergency <input type="checkbox"/>	Affected Release A		Change Class
Title Automount Illustra installed on kyoto			
Documents Affected None		Source Nos (RID, NCR, etc.) or Tech Reference	
RTM Changed <input type="checkbox"/> Start New Baseline <input type="checkbox"/>			
Problem The Release A Document Data Server (DDSRV) is using the development machine kyoto for development as well as builds because we need to use the Illustra libmi API and TOPIC. Currently, kyoto is the only machine where this software is available. We are unable to build on the baseline machines because we need the Illustra headers and libraries as well as TOPIC. Whenever there is a ClearCase problem on kvoto, we can not work.			
Proposed Solution Automount /data/illustra on kyoto to /tools/illustra on osaka, tokyo, and kingkong. Automount /data/topic on kyoto to /tools/topic on osaka, tokyo, and kingkong.
